# MADE FOR BIKERS

**BORN IN BRITAIN**

*Red Torpedo is rooted in Britain's  
motorcycling heritage. British biking  
is in our blood.*

From the biggest, balls-out motorcycle race  
on the planet at the TT, to the blast that is  
British Superbikes, you'll find *Red Torpedo*  
on the backs of Britain's best riders.

This year we've also been asked to produce  
the official clothing for *Brough Superior*,  
*Vincent* and *Velocette* ~ a pretty serious accolade  
for a *British indie brand* like us.

# THE RED RIDERS

We're proud to work with our elite lineup of world-class racers. The red riders put our gear through its paces... we get their feedback. Jobs a good 'un.

GUY MARTIN'S FAVOURITE BIKE:

*My favourite bike?*

*The Britten V-twin 1000.  
John Britten knew his  
antics - mega engineer  
and designer well ahead  
of his time.*

*Talk about innovation,  
it was a work of art.*

*And there's only  
10 of them left in  
the world!*

## *Quality Values.*

We don't sell cheap tat. We design every bit of the gear, source superior suppliers in Portugal and the UK who we trust to deliver to our standards. We could do it more cheaply, buying in junk and slapping a print on, but for us that is the fastest route to an early shut down.

We don't want to be the biggest, we want to be the best, and we want to have a blast on the way. By staying small, we stay true to ourselves and true to our beliefs.

*Red Torpedo. Gear with Grit.  
Built for Speed.*
